CTL|THOMPSON ADDS MCCLELLAN TO GROW FORT COLLINS STRUCTURAL DIVISION

(DENVER, CO. – February 5, 2007) CTL|Thompson (CTL|T), a consulting engineering firm specializing in geotechnical, materials, environmental and structural engineering; in addition to construction materials observation and testing, has hired Mr. Joseph G. McClellan, Jr. as a Project Engineer for the Fort Collins, Colorado Structural Engineering Division.

McClellan's position at CTL|T involves structural design and analysis for residential and commercial projects. McClellan has 10 years of structural engineering, project management, and field investigation experience for new and distressed structures. Some of his project experiences include the Parker Condo/Warehouse office building, Frederick, Colorado; the addition to the Frederick Elementary School, Frederick, Colorado and numerous custom homes in the Fort Collins and Boulder metropolitan areas.

McClellan holds a bachelor of science in Architectural and Civil Engineering from Drexel University in Philadelphia, PA. He works primarily in the Northern Colorado area including the Longmont and Boulder areas.

Over the past 35 years, CTL|Thompson has built a reputable firm known regionally for its expertise in geotechnical, materials, environmental and structural engineering and testing. CTL|T has offices in Fort Collins, Denver, Colorado Springs, Pueblo and Glenwood Springs, Colorado; and Dallas and Austin, Texas. For more information, please visit www.ctlthompson.com.
