CTL|THOMPSON WINS WELL-REGARDED CCA ENVIRONMENTAL EXCELLENCE AWARD

(DENVER, CO. – February 23, 2007) CTL|Thompson, Inc. (CTL|T), a consulting engineering firm specializing in geotechnical, materials, environmental and structural engineering; as well as construction materials observation and testing, received an Environmental Excellence Award during the Annual Colorado Contractor Association Convention on January 26, 2007 for their innovative “Storm Board.”

CTL|T collaborated with local contractors and builders to facilitate, develop and implement an effective Storm Water Permit compliance program. As a result, the CTL|T Storm Board was created to provide a site plan for storm water compliance that is durable and easy to keep up-to-date. On-site personnel track common elements in the site area that change day to day by maintaining and updating the board with high strength, color-coded magnetic pins. Permanent changes can also be made on the board through the use of color-coded markers.

The “Storm Board” provides various benefits for both contractors and builders. For example, when clients undergo inspection by a regulatory entity, their Storm Water Management Plan will more clearly reflect the changing conditions on site which can reduce the risk of possible fines and regulatory actions against the client.

Annually, awards are given to firms that exceed environmental requirements and/or that demonstrate innovative environmental solutions. “This represents a collaborative effort of the CTL|T staff to improve our clients ability to meet storm water and erosion control compliance goals”, says Brian Garber, Storm Water Compliance Consultant with CTL|T’s Denver offices.

Over the past 35 years, CTL|Thompson has built a reputable firm known regionally for its expertise in geotechnical, materials, structural, and environmental engineering and testing. CTL|T has offices in Fort Collins, Denver, Colorado Springs, Pueblo and Glenwood Springs, Colorado; and Dallas and Austin, Texas. For more information, please visit www.ctlthompson.com.
